Majalengka, Indonesia

Graduate of SMKN 1 Leuwimunding majoring in Computer and Network Engineering. Experienced at Revid Organization in digital creativity, skilled in web landing page creation, UI/UX design, and photography. I love learning new things and currently looking for new opportunities as a Full Stack Developer. My hope is to become a skilled and innovative Web Developer, creating user-friendly and high-performance websites while constantly learning the latest technologies to stay ahead of the industry.

Work Experience

Rep Computer - Majalengka, Jawa Barat

Jan, 2019 - Mar 2019

Computer Engineer

- The task **involved** identifying hardware and software problems by **using** diagnostic tools, **checking** system logs, and **testing** components. The result **was** pinpointing the issue, such as faulty hardware or software conflicts, and **preparing** a report for further action.
- This task **included** setting up installation media, **installing** the OS, drivers, and necessary applications, and **configuring** system settings. The result **was** a fully functional system **optimized** for user needs.
- The task focused on cleaning, replacing damaged parts, and monitoring health. The result was improved performance and longer hardware life.
